Message from the Principal 院長序言

With over 20 years of experience in professional education and training, PEAK is one of the leading in-service training providers in Hong Kong, striving to provide high quality and market-driven education and training programmes to meet the learning needs of working adults. The following highlights our new CPD programmes for the coming quarter:

In the digital era, new information technology has been dramatically changing the finance industry. The emergence and rapid growth of electronic finance creates new and radically different business model in the financial market, this innovation is shaping the industry to be more competitive. To cater for the emerging market needs, PEAK launches a new CPD e-finance programme "Electronic Financial Service and Big Data" for practitioners. The programme comprises 4 modules, namely "Electronic Financial Service Overview", "Electronic Financial Services Application", "Big Data Concepts and Applications in Insurance" and "Artificial Intelligence (AI) in Insurance". Apart from the e-finance programme, PEAK also offers an InsurTech programme "Innovation and Transformation of InsurTech" to the insurance and financial intermediaries. InsurTech is changing the traditional insurance industry; you can explore the details on InsurTech's innovation, trends, applications, regulatory challenges and InsurTech ABCD (AI, Blockchain, Cloud & Data) in this new programme.

Risk management has become increasingly important, especially in the financial world. It is a process of identification and analysis of potential risk and taking precautionary steps to mitigate the assessed risk. As a frontline financial practitioner, you have to equip yourself with the professional knowledge on risk management. "Personal Risk Management" is a 4-hour CPD programme newly launched for you to understand and explore the related theory and knowledge.

Many educationists emphasise that children's early education has great impact on their future values. Good financial and wealth management training at an early stage is crucial to the children, which leads to the increasing demand for these related programmes. A new programme, "Parent-Child Financial Planning Games Workshop" is launched in which you can understand the basic principle and technique about the financial planning at the childhood stage and how to apply it effectively. Find out more from the New CPD Programme Section!

I hope you will find these programmes relevant to your professional development needs. Let me extend my warm welcome and I look forward to seeing you at PEAK.

課程背景

自從2007-2008年全球金融危機爆發後，世界各國的教育組織均紛紛重新審視財商教育的重要性。眾多教育學家一律指出，兒童的初期教育及生活習慣對其成長後的價值觀會造成深遠的影響。因此，良好的財商教育絕對是孩子一生受用的財富。

課程目的

本課程旨在透過獨特的生命理財教學智慧和務實的財富管理技巧，幫助學員準確的掌握小孩的想法，提升與小孩溝通的技巧，及有效地讓小孩建立正確的金錢觀念和態度及掌握處理金錢的技巧。

(IV) INTELLECTUAL PROPERTY POLICY (IP Policy) ON STUDENTS

Intellectual Property

- "Intellectual Property" (IP) means any discovery, creation, invention, design, get-up, trademark, commercially licensable technologies, database rights, confidential information, trade secrets, know-how or any research effort and all rights pertaining thereto whether registrable or not, including patents, copyright, trademarks, designs, utility models, or other such rights in any country, and applications for any of the foregoing. Intellectual Property Rights (IPR) are legal rights protecting the creator of IP, giving him / her economic rights and control in his / her creations.

Applicability of Intellectual Property Policy to Students

- VTC's Policy on Intellectual Property is applicable to all students, whether full-time or part-time, who are registered students of programmes offered by VTC or its institutions / centres, whether the programme is solely offered by VTC or jointly offered with other partner institutions or is commissioned to be offered.

Ownership of the Intellectual Property

3. In the course of study, students will make use of the equipment, facilities or resources owned by VTC, including but not limited to drawings, data, sketches, documents, laboratories, stationery and consumables, and will receive guidance from teachers in generating ideas for assignments and projects and may, therefore, generate Intellectual Property which might be adopted for commercial use. Whilst the student will maintain ownership of the Intellectual Property in the materials he or she creates, each student irrevocably grants VTC a perpetual, royalty-free, world-wide and non-exclusive right to reproduce or use (in whole or in part) any Intellectual Property materials (including adaptations of such materials) created solely or jointly with other persons during his / her course of study. Such right to use will include but not limited to, for example, the followings:
- a) the right of VTC to sub-license the Intellectual Property;
 - b) to showcase the award-winning works of the student for publicity or display purpose; and
 - c) to refer to and use the works created by student in seminars, symposia, lectures and professional meetings.

VTC will acknowledge the materials as the student's Intellectual Property.

4. The exception to the rule on ownership set out at the above clause is that in cases where a student is working on a project that is sponsored by an external company and/or the VTC, the right to the Intellectual Property generated from the project should belong to the Company or VTC or student as stipulated in the prior agreement of the parties concerned. In this context, "sponsor" means support from the company or VTC, which could include financial assistance (cash or in kind), use of company's or VTC's equipment and facilities, and access to company's or VTC's confidential data, drawings, sketches, and documents relating to the project.

Student's Obligations and Warranty

5. Notes and programme materials provided to students by teachers or departments are VTC's properties and shall be used by students only for private study. Students are not permitted to upload such materials to other servers and/or make copies, either in printed or electronic format, of the materials for other people who are not registered on the studying programme concerned. Video taking or recording during lessons without permission are prohibited.
6. Each student should ensure that the Intellectual Property materials created by him or her shall be original and do not infringe the Intellectual Property rights belonging to any other person especially copyright, moral rights, patents or registered designs of any person and, in particular, that it does not contain anything defamatory or libelous.
7. Each student undertakes to promptly report to VTC if he / she knows or has reason to believe that the right of the Intellectual Property materials belongs to someone else solely or jointly with him / her.
8. Each student should, at the time when he or she completes registration for a programme offered by VTC or its institutions / centre, undertake to agree to follow the policies, rules and regulations issued or to be issued or revised by VTC from time to time. Each student acknowledges his or her understanding that adherence and compliance to the policies, rules and regulations is a condition of continued enrolment and graduation. Any violation of VTC's Intellectual Property Policy is considered as a serious misconduct, which may be referred to Student Disciplinary Committee, or any counterpart in respective member institution handling student disciplinary matters, for investigation and consideration.

(V) STUDENT DECLARATION ON ACADEMIC ORIGINALITY

I declare that all the academic work that I will submit, which may take various forms such as but not limited to class work, written assignments, laboratory work, presentations, portfolios, artefacts and projects during the course of my study are entirely my own work. I understand submitting or presenting academic or assessment works, either in its entirety or in part, which is not my own work but claiming that it is my own work would be considered as cheating, which will render me liable to disciplinary actions.

I have read, understood and agreed to follow all relevant rules and regulations promulgated by PEAK under VTC stipulated in the "(I) Collection and Use of personal data", "(II) Notes to Applicants", "(III) Declaration", "(IV) Intellectual Property Policy (IP Policy) on Students" & "(V) Student Declaration on Academic Originality" on pages 2 & 3 of this enrollment form and in the "Programme Administration Guidelines" (the Guidelines) and in the "Student Handbook".
